PROFESSIONAL SUMMARY

Enthusiastic and detail-oriented Computer Engineer with a strong passion for building impactful software solutions. Skilled in Full-Stack Development, Android Development, and Web Technologies. Adept at solving real-world problems through innovative project work and collaboration.

TECHNICAL SKILLS

- Frontend: HTML, CSS, JavaScript, React.js, Tailwind CSS, Bootstrap
- Backend: Java, Servlets, JSP, Hibernate, Spring, Spring Boot.
- Databases: SQL
- Programming Languages: Java
- Concepts: OOP, Full-Stack Development, REST API Development.
- Tools & Platforms: IntelliJ IDEA, Visual Studio, Eclipse IDE, Android Studio, GitHub, Postman

PROJECTS

Smart Sun Solar Tracking System

A hardware-based solar panel system that uses LDR sensors to track sunlight and maximize efficiency.

Tech Used: ESP32, Servo Motor, LDR, Blynk App

Portfolio Website

Personal portfolio showcasing my skills, projects, and contact information.

Link: 06atharv.github.io/Portfolio/ Tech Used: HTML, CSS, JavaScript

Netflix Clone (In Progress)

A clone of Netflix UI with component-based structure and streaming feel.

Link: 06Atharv/Netflix-Clone Tech Used: React.js, CSS

Hand Sign Detection for the Hearing and Speech Impaired

Python-based system using OpenCV to detect hand gestures and translate them into text for real-time communication assistance.

Tech Used: Python, OpenCV,

EDUCATION

Bachelor of Technology (B. Tech) in Computer Engineering

Dr. D. Y. Patil School of Engineering, Pune (Ambi)

2022 - 2025 | CGPA: 8.15

Diploma in Computer Science

Dr. D. Y. Patil School of Engineering, Lohgaon - Pune

2019 - 2022 | Percentage: 78.91%

CERTIFICATIONS & ACHIEVEMENTS

- Best Paper Presentation Topic: Solar Tracking and Monitoring System
- 1st National Conference on Radical Innovation for Sustainable Engineering
- Certificate in Android Development
- Certificate in Internet of Things (IoT) Training
